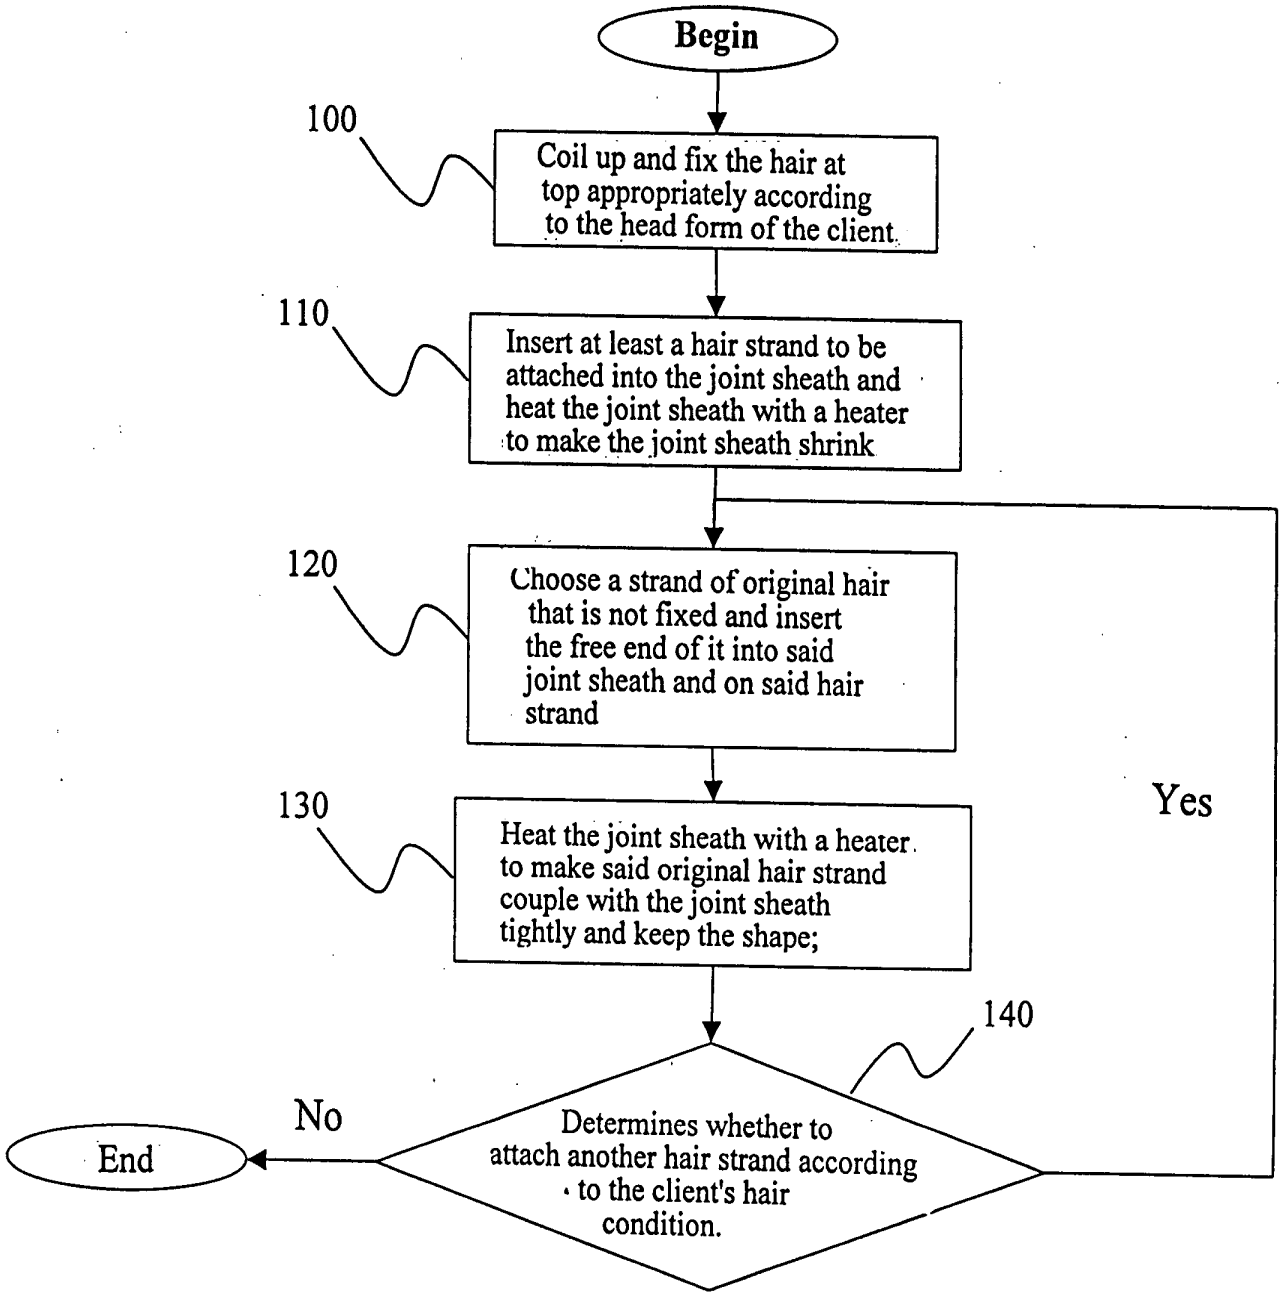
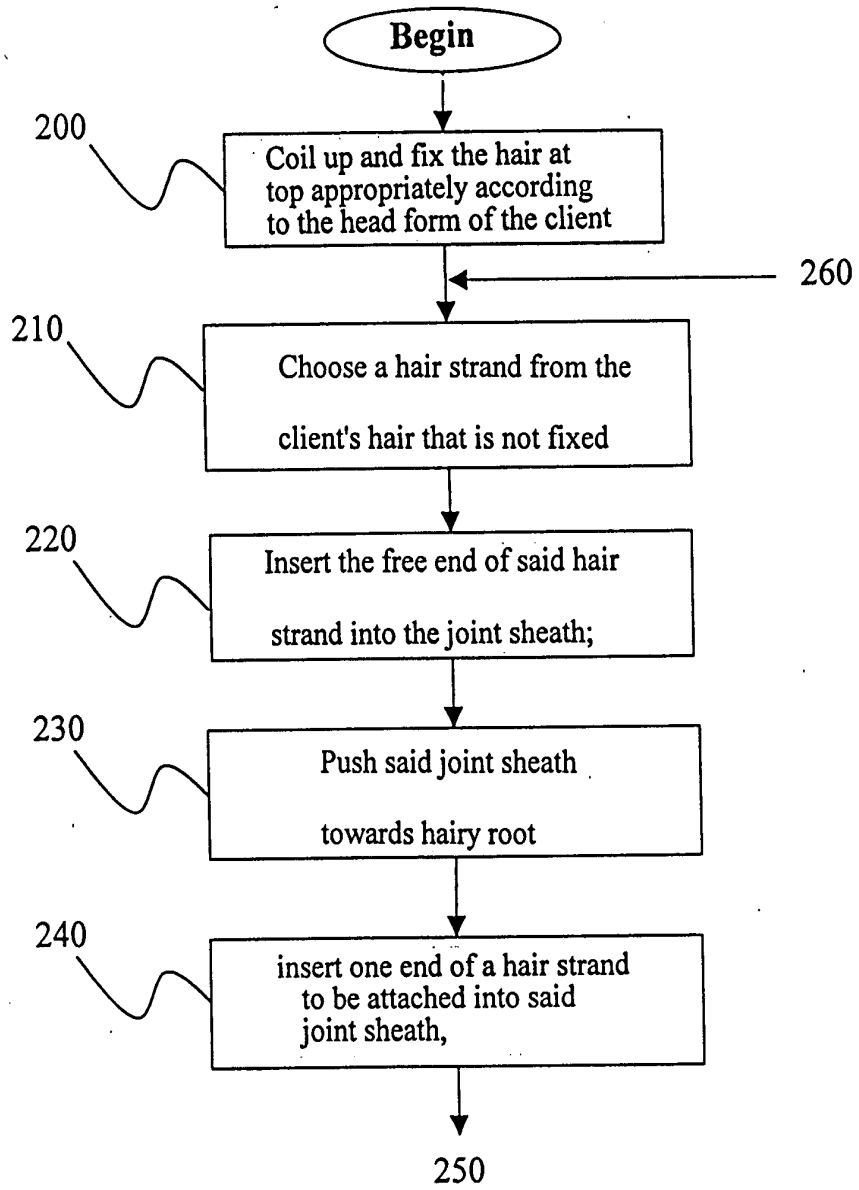
Fig 4



Begin
100
Coil up and fix the hair at top appropriately according to the head form of the client.
110
Insert at least a hair strand to be attached into the joint sheath and heat the joint sheath with a heater to make the joint sheath shrink
120
Choose a strand of original hair that is not fixed and insert the free end of it into said joint sheath and on said hair strand
130
Heat the joint sheath with a heater to make said original hair strand couple with the joint sheath tightly and keep the shape;
140
Determines whether to attach another hair strand according to the client's hair condition.
Yes
No
End



Begin
200
Coil up and fix the hair at top appropriately according to the head form of the client
260
210
